Mild weather will not last long.

Frederick Fryer, who has been sick a little now and then, with a gentle, cleansing laxative, thereby removing offending matter from the stomach and bowels, and toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of diseases, such as headache, indigestion, biliousness, skin diseases, boils, carbuncles, piles, fistulas and maladies too numerous to mention.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Laxative is unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles and indigestion.
